Problem/disconnect

Problem/disconnect

Follow up with contacts are delayed because current communication methods are inefficient with reaching contacts.

Users

Field workers use this app to connect with contacts.

User needs

Access contact information and how to meet with contact

Simplify communication process

Prevent unauthorized access to application

Safety and privacy for the field workers and contacts

Push notifications on their phones

Solution

Mobile application that consolidates contact information and streamlines communication.

Why this solution works

Simplify communication (stores previous communication with contact)

Contact history and information (secure database sending info to app)

Security and privacy (account login, app inactivity timeout)

App demo

Questions?

Problem/disconnect

Follow up with contacts are delayed because current communication methods are inefficient with reaching contacts.

- Inconsistent platforms are used
- Contacts lose interest after 48 hours
